Synergy Physical Therapy is a patient-focused clinic that successfully treats surgical and non-surgical diagnosis.

We are for everyone because of our dynamic approach to physical therapy.

Synergy Physical Therapy is conveniently located off the 101 and Shea in Scottsdale.

**STAND STRONG,
WE'RE BY YOUR SIDE**

SYNERGY
PHYSICAL THERAPY

At Synergy Physical Therapy we give evaluations **time**.

Not only do we gather x-rays, MRI results, operation reports, and other pieces of information, we ask QUESTIONS... *lots of them.*

By giving evaluations time, we are able to look at not just the source of the pain but the entire musculo-skeletal system and any major contributing factors to the conditions or injury.

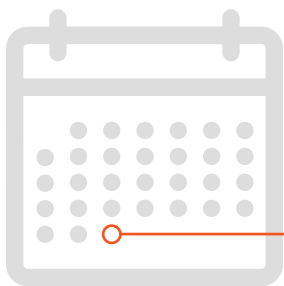

QUESTIONS ARE KEY.

Since we give evaluations **TIME**, we have the freedom to ask specific questions that go beyond clinical diagnosis. At Synergy Physical Therapy, we believe it is important to not only take the clinical information, but also discuss how the patient feels during the daily activities and set **GOALS**.

PATIENT-CENTERED
GOALS

Along with function and strength goals, we put patient-centered goals at the forefront of treatment.

*After all, it is their **LIFE**.*

And we don't stop there.

Depending on the patient's insurance, we do progress notes every 10 visits or 30 days so that as a patient becomes stronger and more functional, we re-evaluate our treatment plan and goal progression.
